

Dear Prof Natalia Nikulina,

Following up on your recent RFP submission we are pleased to inform you that you have been selected as a supplier for the ICD-11 Russian translation. After evaluating your RFP submission and following consultations with the Russian Ministry of Health we are planning to issue you with a APW contract for performing the following phase one translation work:

Objective 1: English to Russian translation of ICD-11 Chapter 11 Diseases of the circulatory system

Output 1.1: English to Russian translation of approx. 15207 ICD-11 Chapter 11 terms (i.e. titles, inclusions, exclusions, coding notes and definitions at chapter and grouping level, and - where appropriate - also synonyms and identify the preferred term for a title for every entity in Russian).

Timeline: Start date: 01/05/2021 End date: 15/07/2021

Best regards,

Nenad Kostanjsek
